We bought "Annabelle", as she came to be known, one month after we were married, over 47 years ago. We pulled her out of a farmer's field, sitting on a box and 2 clicks on the E brake. We paid \$1.00 for her. Yep...a buck!

Her first paint color was a deep poly blue, then white with baby blue trim. At that time we put a 440 dodge in her, (with some modifications). She went down the racetrack at 13 flat.

She got parked for a while as we raised kids, then in what took Dave 10 years to do; a total rebuild from the ground up with many body modifications. You see the beauty she is today. Her original color is seafoam green. Her color now is called 2000 light green metallic by Peterbilt, yes a big truck color. A nice modernized color from her original.

We started with a 351 M engine. With modifications, she is now a 400 with a Holley Sniper EFI. She has a custom chassis, lowered about 12 inches. Electric locks, windows, and air cowl vent and vintage air are some of the upgrades. Recently Dave put in a Gearvender overdrive on a FMX 3-speed automatic transmission. She has Dolphin gauges and a "I did it" tilt steering column.

## 'Stang of the Month (Cont.)

She sports a Gaylord hard top for the bed, which covers a beautiful oak bed with chrome strips stained in dark cherry wood with black antique which, is where the gas fuel cap is located. It has a cool hidden hitch behind the back license plate in the roll pan Dave designed. She has raised many kids and created many memories. With Dave newly retired, we recently drove Annabelle to McKenzie Tennessee. What a fun time we had!

When we joined the Mustang club we introduced her as a mustang with mumps!

Thank you Dave for seeing a vision for Annbelle over 47 years ago and making her the beauty she is.

- Crystal Redinger

## The Prez Sez...

By **Tom Seep**

We're halfway through the year and the forecast is for warmer days ahead—just in time to celebrate Fourth of July and more car shows.

Weather did not deter the car enthusiasts who attended the 23rd annual Wendle Ford car show on June 19th (Father's Day). The day started with rain, but we had a fairly good turnout with a lot of Mustangs this year. About eight or nine of us from IEMC were there.

Looking ahead, there are all kinds of shows in July: the Spokane 4 Wheelers/Suncrest Auto Parts Show on July 4, the Greater Spokane Meals on Wheels Road Rally on July 9, and the Eagles Honor Flight Show & Shine on July 30, just to name a few. Refer to the INCCC Calendar of Events for more details on these and others.

Preparations are going well for Hot Wheels on August 6, so let's spread the word wherever we can. We are still looking for a food truck that can provide coffee and breakfast. Contact Bruce Stirn if you need flyers to hand out.

Wherever your Fourth of July celebrations take you, stay safe and sane.

Carpe diem, Mustangers!

- Tom

# Ford Celebrates 100 Year Connection With Veterans Group

On June 5th, 2022 Ford, and the #21 NASCAR Wood Brothers Motorcraft/QuickLane Ford Mustang Team, celebrated a milestone in Ford's association with DAV (Disabled American Veterans). A special graphics scheme was applied to the car at World Wide Technology Speedway in St. Louis to commemorate 100 years of Ford's support to DAV and their operations. Ford has been supplying vehicles and transportation to the group since WWI, beginning with fifty 1922 Model T's a century ago.

DAV helps more than a million veterans every year, and gives over 500,000 rides, through a transportation network that they created in 1987. Ford has donated hundreds of vehicles and volunteer drivers to the program. DAV members and their qualified family members have purchased over 30,000 Ford vehicles through its X-Plan Partner Recognition Program. In addition, Ford currently employs more than 6000 veterans.

The NASCAR race was won by fellow Ford racer Joey Logano in his #22 Penski Racing Mustang. The DAV #21 driven by Harrison Burton finished 25th.

## Pikes Peak Race Celebrates its 100th Anniversary:

### Shelby American Brings 60th Anniv. GT500SE to compete

Seattle Shelby Dealer, Pierre Ford, supplied a 60th Anniversary Shelby GT500SE for the 100th running of the world famous Pikes Peak Hillclimb race in Colorado at the end of June. The 800+ horsepower car received a few tweaks for competition on the challenging course, but remains essentially in its stock configuration. Suspension tuning and a set of springs more suitable for rough-road performance were swapped into the car. A lighter carbon-fiber hood saved 30 lbs and added strength and durability.

Champion driver Robert Pilika has the privilege of piloting the car on the 12.2 mile course, which includes an elevation change of 4725 feet, and which finishes at 14,115 feet above sea level. The road is exceptionally dangerous and there are very few protections against flying off the mountainside if a driver were to lose control at high speed.
